BALLOT ISSUES ARE BRIEFED FOR RESIDENTS

(Editor's Note—This is the third of eight articles explaining propositions appearing on the Nov. 4 election ballot).

Two "sister" propositions on the November ballot attempt to protect the state and nation against subversive groups and individuals.

Arguments pro and con center chiefly on the question whether or not rights of the individual would be denied by the measures.

One of the controversial amendments is Proposition 5, which provides that persons or organizations advocating overthrow of the federal or state government shall not hold public office nor enjoy property tax exemptions.

The second proposal, Proposition 6, would require a "public employee" as well as a "public officer" to take an oath declaring that during the preceding five years he has not (and will not) belong to a group advocating overthrow of the govenrment by force.

Under the existing law such oaths are required of members of the Legislature and all executive and judicial officers. There is a distinction between public officers and public employees, and the law now does not require the public employee to take the oath.

The oath would be extended to all persons employed by the state, the University of California, and every county, city, district commission, board, department or bureau.

The oath would be: "I do solemily swear (or affirm) that I will support the Constitution of the United States and the Constitution of the State of California, and that I will faithfully discharge the duties of office according to the best of my ability".

Speaking for passage of Proposition 6, Assemblyman Harold K. Levering declares a public servant has a duty to support the form of government chosen by the people he represents.

Adds Levering: "They should not be allowed to represent the people and be supported by them and at the same time retain any right to advocate the forceful or violent overthrow of the very government by which they are employed".

Assemblyman George D. Collins Jr. and Edward Elliott are outspoken opponents of the move to extend the oath. They state the State Constitution already requires an oath of allegiance and specifically states that "no other oath, declaration or test shall be required".

Collins and Elliott say that provision has stood the test of time since 1849 and that Proposition 6 would be a mandate to the Legislature to "investigate and snoop into the lives of all of the people, even on irrevelant matters".

Those who seek passage of Proposition 5, which would deney public offices or tax exemption to subversive people, say it will hit subversive persons where it hurts most—in the pocketbook.

Opponents of Proposition 5 declare a plan to eliminate subversives is "laudable" but question the method of going about it. Ernest Berg, director of the American Civil Liberties Union of Northern California, says he fears an elaborate costly system of investigations and public hearings.

Proposition 21 would correct a technical defect in the constitutional provision governing election of Superior Court judges. The secretary of state's report on propositions lists no opposing arguments to it.

Under the existing law, vacancies in the Superior Court are filled by appointment instead of election during the calendar year in which the vacancy occurs. This is true even if the vacancy occurs in an election year.

The amendment provides that the vacancy shall be filled during the earliest election scheduled.

Royer Urges Care At Latimer-Carlyn

Campbell mothers of children attending new Rosemary School on Hamilton Ave., are concerned for the safety of their children at the Carlyn and Latimer Ave. school crossing.

There are five school boy safety guards presently stationed at the intersection wearing bright red sweaters, but motorists on occasion have ignored their stop signs, mothers have protested.

Principal Neal Royer wishes to remind Campbell drivers that the hours from 8 to 9 a. m., 12-1p. m., and 3 p. m. to 4 p.m. are the times when there is heavy foot traffic from crossing school children.

School warning signs on Carlyn to Latimer Aves. though promised by the county have not yet been posted, Royer said.

HIGH SCHOOL SQUAD STILL RAGGED BUT SOME BRIGHT SPOTS APPEAR

Jim Muir, head coach of Campbell Union High School football, in the pessimistic attitude typical of all football coaches, reached for the crying towel when asked how the squad is shaping up.

He said the team still needs a lot of work and after a week of practice still looks pretty ragged, but that early practice has uncovered a few bright spots.

He said the guards need much drilling on pulling out and leading interference.

"They don't have the speed or power they should have and they run too high," he said. "But I expect them to smooth out as we go along."

"The centering could be a lot better," Muir said. "We are having a little trouble reaching the fullback with straight accurate passes on this single wing formation."

Muir said that with the increase in high school enrollment, he expected some transfers from other areas that would make good football material but that so far he hasn't come across any.

Muir admitted there were some bright spots in the practice sessions held to date.

"Downfield blocking has been exceptionally good," he said, and in that respect he singled out Bob Tokanaga as doing a bang-up job.

Tony Musladin and Silvester Barton were praised for their quick cutting and long runs from the hafback slot.

Muir said he would concentrate on passing and punting in this week's sessions and will attempt to smooth out his offense.

About 160 students are now signed up, with 130 suits issued. Coach Muir said there will be a waiting list of 20-30 boys without suits, but by mid-season with dropouts and cuts for various reasons, all those who have signed up will be given a chance to see what they can do.

Shot Fired In Poolroom Ruckus

One asserted punch at Walter Lamb, proprietor of Campbell Billiards last Saturday night by William Hensen, cost him 25 days in the County Jail but it came close to costing him his life.

Judge Martin S. Walsh sentenced Hensen to 25 days in the County Jail or $50 fine Monday when he pleaded guilty to an assault and battery charge filed against him by Walter Lamb.

According to the Campbell Police department which came to the scene of the argument, Hensen had been drinking and was creating a disturbance in the poolroom when Lamb ordered him out of the place.

Hensen allegedly reached across the bar and let go a haymaker at Lamb who whipped out a pistol, fired one shot into the floor at Hensen's feet and ordered him out.

Patrolmen Louis Doolittle and Robert Locke apprehended Hensen and lodged him in the County Jail pending charges filed by Lamb.

Pat Means Wins Football Contest; Pentzer Second

Twenty-five dollars first prize money in the Campbell Press weekly football contest was won by Pat Means, 15 year-old daughter of Mr. and Mrs. L. E. Means, 131 Poplar Ave.,, Campbell, who picked the winner in every game except Kentucky-Villanova. When asked by the Press how she happened to pick so many correct, Miss Means, a sophomore at Campbell High School, said she has always followed collegiate football, listens avidly to radio and newspaper accounts and spends hours each week tabulating chances of coming football contests.

Arthur Hill, 251 South Winchester Road, son of Mr. and Mrs. Laurence J. Hill, superintendent of Campbell High School district, who had choices coinciding with with Miss Means—all right except the Kentucky-Villanova game was regretfully disqualified by the football contest editor because of an error in filling out the entry blank. Hill, instead of filling out the specific product advertised by the firm sponsoring each game, as directions called for, wrote only the names of the teams playing. There was nothing wrong with his football savvy, however—he picked them all right except one.

Second prize had to be divided between Bob Pentzer, 626 Kenneth Street, and Shirley Strong, 370 Budd Ave., who picked them all right except two.

Third prize was awarded to J. F. Levenberg, 560 South San Jose Los Gatos Road, who missed four of 16 games listed.

Orchard City Grange decided to abandon its proposal to rent the Grange lot for parking for down town merchants, after hearing the report by Jerry Locke. Reason given was that conditions imposed by Campbell City Council made the project too expensive.

The Grange endorsed the action of the City Council against gravel excavation in the Los Gatos Creek which threatened to undermine the Camden Ave. bridge

Jaycees Plan Feed

Campbell Junior Chamber of Commerce will hold a barbecue as a welcome to new members Sunday, Sept. 28, at 1012 South San Tomas road. Everyone is welcome, and chamber members remind those planning to attend to bring their own steaks and wives.

HUNT FOODS CONTRIBUTE FIRST TO AREA COMMUNITY SERVICE FUND; WADE URGES GENEROUS DONATIONS

Honors for being the first contributor to the Campbell Area Community Service Fund Drive goes to Hunt Foods, Inc. Headquarters office, across from the Bank on East Campbel avenue, has received a number of donations from individuals who knew they would be away from home when the solicitor calls. This fine cooperation is greatly appreciated, and will help out the red line to the top of the thermometers, displayed at each end of Campbell business district. Dr. Robert M. Wade, president of the Community Service Board, urges all residents to give generously, that their own community services and youth programs may live. "You are giving to yourselves when you give to the Community Service Fund," said Dr. Wade.

What do these youth programs and community services mean to the average resident? Ed Tablak, drive chairman, answers: "Imagine for a moment the plight of our community without these services. Suppose we had no organized Scout troops, Girl Scouts, Campfire Girls, or YMCA activities. Hundreds of our young people would then be dependent upon the community at large for recreation. With what shall they replace the meetings, hikes, camping trips, etc?"

"Where could they go? When they meet in groups or gangs, who is going to supervise them? What is goin gto replace the overall program of instilling high ideals and good citizenship in young minds?

"Parents, think of the time your boy or girl now spends in Scout activities, and you are free for other work, knowing that he or she is safe, mentally, morally and physically. Are you prepared to give your time and effort to replace these activities for your child?

"Could you supply the group interest, the facilities, and the varied knowledge now supplied by the scouting program? If you could and would, what would it cost you?

"It is difficult to imagine the full extent of loss our community would suffer in case we lost our youth organizations, because their programs are set up for long-time goals as well as immediate satisfaction. Only when the last of the participating youth had been replaced by those who had never benefitted from the fun of learning good ctiizenship and high ideals through the activities of our youth organizations, would we get the full impact of our loss, and by that time we would have lost them forever. Our community would suffer irreparable damage. Whether or not you have children is of little importance, for to have a good community you must have good citizens. The youth of today are the citizens of tomorrow.

"Give generously, that they may have the advantage of well organized and efficient recreation programs."

New Hospital Planned For This County

Contemplating construction of a new ultra-modern Kaiser Medical Center to serve the rapidly growing population of Santa Clara County, Henry J. Kaiser, president of the Permanente Foundation, today announced the Foundation's purchase of 10 acres of land in the San Jose area as the possible future site.

The property, on the Santa Clara-Campbell Road within the city limits of Santa Clara, was acquired from the David D. Bohannon organization of San Jose and is adjacent to the Westwood tract housing development constructed by the Bohannan group.

The Foundation, a non-profit, charitable trust established by Industrialist Henry Kaiser and his family, emphasized that purchase of the site was part of a long-range program which "contemplated" construction of a Kaiser Medical Center in the area, and that plans, still under consideration as to size, cost, timing of construction and other details of the proposed new hospital, will be announced when definitely determined.

The Foundation currently is operating 19 medical centers and clinics in California, Oregon, Washington, Utah and Washington, D. C., to serve the health needs of the general public and provide facilities for all qualified doctors in the respective areas as well as to Kaiser Health Plan members and doctors.

Three new Kaiser Medical Centers are under construction and another nearing the construction phase in Los Angeles, San Francisco, Fontana, and Walnut Creek, California, at an over-all investment of approximately $9,000,000.

Ernest L. Gee, operator, says the cars will cruise up and down Campbell Ave. and will service calls emanating from the San Jose office, until location of a permanent stand is determined by Campbell City Council. When a stand location has been determined, Gee said, private telephones will be installed so that a person desiring a cab will be in touch with a cab driver as soon as the receiver is picked up.

Gee emphasized the two-way 24-hour radio communication, by co-operating with Campbell policemen, in the matter of assisting in burglaries, fires, and other civic emergencies, will be an asset to the community.

Company has four cabs available for the Campbell area all equipped with two-way radio, but will start operations with two.

Cabs will be available for transportation anywhere in the city for 25 cents with no charge for extra passengers. Low meter rates will determine uot-of city charges, Gee said.

SJSC Faculty Colleagues Wed In Spartan Chapel Ceremony

Jan Eloise Hagerty became Mrs. Rocci G. Pisano in a San Jose State Chapel wedding which united two San Jose State College assistant professors of biology. The Rev. Stephen C. Peabody of the First Congregational Church of San Jose performed the morning nuptial rites, which were witnessed by members of the immediate families of the bride and groom.

David C. Sears of Sacramento escorted his granddaughter to the altar. The bride wore a gray flannel suit with gray reptile shoes and purse and a white felt hat. She carried a white and purple orchid upon a white Bible, the gift of her grandparents.

Jan's matron of honor was Mrs. Joe Bera (Donaldeen McNeill), who wore a purple faille suit with purple accessories and carried a bouquet of orange blossoms and white bouvardia.

Rocci Pisano's brother Nick was his best man, and the ushers were another brother, Anthony E. Pisano, and Joe Bera. Vocal solos were presented by Frank Pisano, also the benedict's brother, accompanied by Miss Virginia Bowe.

After the ceremony, the wedding party enjoyed a brunch at Lou's Village, where gold and white, Spartan colors, were used in the decor for the champagne party given by Mrs. Marianna Pisano.

The young couple are now on their wedding trip through northern California, and on their return they will make their home in San Jose, returning to their teaching positions at San Jose State College in the fall.

The new Mrs. Pisano received her bachelor's degree at San Jose State and her master's degree at Stanford University. She has been teaching at her first alma mater for five years and last spring was named as an advisor to Black Masque Society. She is affiliated with Alpha Omicron Pi sorority.

Elmarie H. Dyke Related To Press

Elmarie Hurlbert Dyke, grand president of the Native Daughters of the Golden West, is related ancestrally to the Campbell Press and the founder of Campbell in this way:

Mrs. Dyke's father, Elgin C. Hurlbert, was co-owner with E. R. Kennedy, of the Campbell Newspaper when it was titled "The Campbell Inter-Urban Press." (Later, under the proprietorship of Harry Smith, the "Inter-Urban" was dropped from the name.)

Originally the journal was called "The Campbell Visitor" under Frank Blaine, brother of Judge John D. Blaine. Judge Blaine is Mrs. Dyke's uncle. Added to this is the fact that Benjamin Campbell, the founder of the city, was the great-grandfather of Judge Blaine's children. Mrs. John D. Blaine's mother, Nina Campbell, was the daughter of Benjamin Campbell.

Summed up, the relationships give Campbell good grounds for claiming Elmarie Hurlbert Dyke, even though she was born in San Jose.

Mrs. Dyke was honored on her official visit to the San Jose Parlor of the Native Daughters of the Golden West last Thursday. She served as Grand Trustee of the organization until 1944, since then she has been a grand officer. For more than 20 years she was entertainment chairman for the County Fair. She is the founder of the Monterey County Concert Association, of which she is currently president. During her term of office she is stressing work for the Children's Foundation. Her home is in Pacific Grove.

American Business Behind The Scenes

By REYNOLDS KNIGHT

Many a businessman looks forward to having a little plot of ground to retire to. Judging from government real estate holdings, Uncle Sam expects to live a long, long time.

The United States Chamber of Commerce recently added up all the Federally owned land in this country and came up with the surprising total of 445,146,726 acres. This equals 711,166 square miles, or about 23.5 per cent of the total area of the country. According to the C. of C., it you put all this together it would cover Japan, Italy, France, Germany, Belgium, the Netherlands, Switzerland and Portugal, and still lap one of the least populated states, over at the edges.

Eighty-five per cent of Nevada, belongs to the government.

Shortage Over — One shortage the nation need no longer worry about is that of sulphur. Ever since the outbreak of the Korean War, the magic mineral of industry has been in short supply. In recent months, however, the shortage has eased to the point where virtually all sulphur requirements in the U. S. are being met.

This optimistic note is sounded by Lanbourne M. Williams Jr., president of Freeport Sulphur Co., wh oreports that the outlook for the future is "extremely encouraging" as the result of nearly 100 new projects to increase the supply of sulphur, in all farms, in this and other free world countries.

These projects, it is estimated, will add approximately 4,000,000 long tons of sulphur per year by the end of 1955, Mr. Williams said. Taking cognizance of the improved situation, the National Production Authority has relaxed inventory controls on sulphur and rescinded all those affecting distribution of sulphuric acid.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

As this column enters its third year in the weekly newspapers of America, recent Congressional actions reveal the influence wielded by weekly newspapers and their readers.

* * *

Events also prove if Americans are given facts, they will act to correct existent evils. So far the independent weekly newspapers of America have stood alone in bringing forth undisclosed facts, letting chips fall where they may.

C. W. Harder

* * *

Significantly Congress did far more than stop government power to control consumer credit, and to cut down the powers of the OPS or Office Plenty Screwy. Unnoticed, Congress took an even more important step.

* * *

Congress at the same time passed a measure to aid and encourage American newsprint production. An attempt will now be made to combat the foreign monopoly squeezing the life-blood out of independent newspapers.

* * *

Action was taken despite previous protests by State Secretary Dean Acheson that nothing should be done to antagonize Canadian newsprint producers despite constant price increases totalling more than 150%.

* * *

In Washington leaders of independent business have long urged Congressmen to protect the free American press from monopoly exploitation. This need has been pointed out time and time as the first bulwark in the defense of American liberty. The Senate Small Business Committee, headed by Sen. John Sparkman, Ala., launched still another probe of the situation.

© National Federation of Independent Business

But in recent months, facts not covered by the big dailies have been brought to small cities and towns of America.

* * *

These facts, without adornment, caused readers of weekly newspapers across the nation to protest to their Congressmen. After all, in the big cities, there are people who can be persuaded that whatever sounds silly is really not silly.

* * *

But high flown theories do not ring true in the smaller cities and towns of the nation.

* * *

In these regions, where the vote is controlled, nonsense is still looked upon as nonsense.

* * *

Sincere Congressmen of both parties voice pleasure over receiving so many expressions of opinions from the solid people who read weekly newspapers.

* * *

Typical comment: "We had a feeling that many things, if they were known, would not set too well with these people, but until we had something concrete to go on, it's hard to disprove the theory boys."

* * *

Many Congressmen give the weekly newspapers full credit for recent acts curtailing the power of the government to meddle in private business and lives.

* * *

Many Congressmen feel this situation is healthy, are prepared to act to aid weekly newspapers buy newsprint on a competitive market.

* * *

Naturally, bureaucrats who have lost power, or position because of this reaction, will oppose such action.

* * *

So organized independent business is preparing to battle on this issue. The results of the past two weeks show that such a battle can be won.

Things to ome—A peewee electric motor for toys and models, among other things, comes with gear box, gears, shafts and connector sleeves . . . New car radiator cleaning thank for use by small and medium size garages is available. Hot chemicals are utilized in the tank to prepare radiators fo rrepairing . . . Plastic light deterrent, pre-cutt o window pane size and available in eight colors in factories, offices and hospitals. The shade is simply applied to a glass pane with water. The makers state it resists moisture, mould, mildew, oils, grease and alcohol, and can be remvoed with water and reused . . . Winter is coming: a pocket hand warmer for outdoor workers, school children and sports enthusiasts is being marketed.

Home Trends—Like many other fields, the home building industry is being forced to consider personal needs of purchasers more closely these days.

E. C. Carlyle, chairman of the Tile Council of America, in an analysis of current trends in home design, notes that the dwindling domestic labor supply and rising cost of living are having a marked affect on architects and builders alike.

Another factor, Mr. Carlyle points out, is a great demand by the large group of oldsters and young married couples for more and more easily washed surfaces, such as clay tile—not only in time-honored places, such as the kitchen and bathroom, but also in other rooms, including the living room and recreation areas. Elderly persons haven't the energy to keep up hard-to-clean floors and young mothers don't have the time. A first-floor bathroom is also a "must" for both age groups.

A fourth factor of top importance is automatic, economical heating.

All in all, the trends seem to be away from frills and toward basic essentials of comfortable living.

Margin Squeeze—Another example in the retail industry's attempt to increase profit margins by lowering overhead and prices is the move by two five-and-ten-cent stores to experiment with self-service merchandising.

Self-service is not practical for many types of business, but there ar ea number of other methods by which both large and small retailers can cut costs. One is the use fewer are needed. In line with of more efficient personnel so that this, good employe relations should b maintained to reduce turnover, and to reduce the resulting training costs and lost sales through inexperienced personnel.

Another saving is to close departments which aren't paying their way. Balanced inventories, sufficient for demand but not in danger of being sold at a loss, are a must.

Other points where costs can be reduced, companies have found, are the removal of services which are little used; re-evaluation of shipping methods so the least exand late or holiday business hours pensive means can be employed; which are good up to a certain point, but can be overdone.

Bits o' Business—In an effort to increase depleted winter stocks of iron ore to a safe level, industry shipped 3,247,327 tons down the Great Lakes in the most recently reported week—only slightly below the record 3,280,094 tons shipped the week before . . . The salmon pack to mid-August totaled 2,812,158 cases, the highest since 1947 . . . The O.P.S. put its foot down and refused to jack hot dog prices to 20 cents . . . Manufacturers' inventories were $42 billion at the end of July, down $900 million from March,

Honeymooners MR. AND MRS. WILLIAM MINEHART of Denver, Colorado, started home yesterday morning after five-day visit with Bill's mother, Mrs. ETHELDA MINEHART, and his sister, JOANNE MINEHART, of San Tomas Road. On Monday they renewed old acquaintances in San Francisco, and on Sunday another guest at Mrs. Minehart's home was MARY LOU HICKS, sister of the bride, the former SHIRLEY HICKS. Mary Lou is a nurse at the Stanford Hospital.

Mrs. PAUL LARKIN of Harrison Avenue considers herself fortunate to have sustained no worse injuries in an auto accident Friday evening. That's plucky for a lady with one foot in a cast. The accident occurred as Mrs. Larkin and five friends journeyed to Pleasanton for a party. Mrs. MILDRED JEFFERSON of Los Gatos suffered a broken shoulder and broken nose, and Mrs. ELSA SMITH of Los Gatos was cut on the forehead. All three injured were taken to the Livermore Hospital, where the latter two were retained overnight, while Mrs. Larkin was released to go on to the party.

Recuperating at home, Mrs. Larkin hopes to return after a week to work at Rachel's Dress Shop, where she is co-partner of Mrs. EMILY McCONNELL.

Fishing for salmon and steelhead, and swimming, too, highlighted a holiday excursion of Mr. and Mrs. LLOYD W. BROWN and sons DONALD and BRUCE, of San Jose-Los Gatos Road, just before school opened. The Browns stayed at Bass Lake for several days, then travelled north to view the Oregon Caves and tarried at Klamath Lake.

Mrs. IRA BEAL of Tucson, former Campbellite, is visiting her mother, Mrs. AUGUST TOLL, at her Rincon Avenue home.

Honored Queen JANIS HENLEY presided at Jobs' Daughters, Bethel 174, first meeting of the Fall term on September 13 in the IOOF hall.

Report was made on the Aloha dance held September 6, participated in by three Job's Daughters Bethels and two De Molay chapters.

It was announced that the next regular meeting will be on September 27, and that Sunday, September 28, will be Go-to-Church Sunday, when members will attend the Methodist Church of Campbell in a body.

Plans were made for initiation and inspection at the October 11th meeting.

Campbellites escorted at the San Jose Masonic Temple commemoration of the 75th anniversary and diamond jubilee of San Jose Chapter 31, Order of Eastern Star, were Mr. and Mrs. EARL BUCK, Worthy Patron and Worthy Matron.

Jarman Chapter 493, Order of Eastern Star, recently hosted OES dignitaries at a "Cooking Party" Introduced, from Campbell, were Mr. and Mrs. EARL BUCK, Mesdames CORA KAUFMAN, DON HARTMAN, WILFRED PETERSON, FRANCES SCHLUETER, and Mr. WILBUR MITCHELL.

Mr. and Mrs. JAMES C. McGEE announce the engagement of their daughter, BEVERLY JUNE, to PAUL M. HOWARD Jr., son of Mrs. PAUL M. HOWARD of San Diego and the late PAUL M. HOWARD.

Bevery is an alumna of Westmont College in Santa Barbara and is now teaching in the Campbell Elementary School. The benedict-elect is attending San Jose State College while employed at the Arbutus Ranch for Boys in Los Gatos.

Campbell relatives of BENJAMIN FRAKLIN DAVISON of Hamilton Avenue who attended a surprise party for Mr. Davidson last week are Mr. and Mrs. JESSE B. COLLINS and their son and daughter, JESSE and JEANETTE, and EDGAR PECHIN and his daugter HULDA LOUISE.

Mesdames GEORGE RICE and GEORGE TUTT attended a recent smorgasbord luncheon at Rickey's Studio club given by Ruths' Association, Order of the Eastern Star.

Mr. and Mrs. C. T. HARE from Dinuba visited relatives Mr. and Mrs. DAVID RUTHERFORD, 101 North Winchester Ave., over the weekend.

Noted Local Writer, Reviewer Donates New Books To Library

Hans Christian Adamson, (Col., USAF, ret.) who recently donated a number of new books to the Campbell library is the author of many successful books and scores of articles on Science, exploration, Aviation and History. He is a widely quoted literary critic.

Perhaps the most dramatic and trying event of his army career was the 24 days spent adrift in the Pacific Ocean after a plane crash while accompanying Captain Edward V. Rickenbacker on a mission covering all Army Air Forces combat fronts, in 1942.

Adamson has worked on newspapers in various parts of the country, serving in capacities from reporter to managing editor.

His book review activities began as part of newspaper routine before World War I and until 1947 did intermittent reviews for such publications as the Sunday sections of the New York Times and Tribune, The Christian Science Monitor, and the Saturday Review of Literature.

His review column, "Books for Men" began in TRUE in 1947 and ended in 1951 when it was replaced by his current "Meals for Men" (a sort of book review of cookbooks for he-cooks")

One of his favorite receipts is a boiled beef concoction which was a holiday dish when cowhands gathered around the chuck wagon for a feed.

When General Eisenhower became head of Columbia University and that institution, at his direction took an interest in adult literature for young people, Adamson was placed in charge of that activity through the Scholastic Press section of Columbia University publications.

This fall, at the request of the Secretary of Defense, Adamson is starting book review services designed to point out books of interest to men of military age.

Adamson served as Chief of Personnel Narratives in the office of Chief of Air Staff, USAAF, during World War II. He was born in Denmark in July, 1890.

On completing his formal eduation in Denmark and England, he came to America to work on various newspapers.

Colonel Adamson left the newspaper field in 1926 to become Special Assistant to Brig. Gen. F. Trubee Davison during the latter's term as Assistant Secretary of War for Aviation.

He held that position until 1933 when he resigned to become Assistant to the President of the American Museum of Natural History.

Adamson returned to Army Service in the Summer of 1941 and was retired for physical disabilities incurred in the line of duty December, 1945. As chief of A. F. Narratives, Adamson directed the writing of the human interest history of the Army Air Forces in all theatres of War. Among outstanding authors who took part in this project were John Steinbeck, Walter D. Edmonds, Henry F. Pringle, Philip Wylie, Lucien Hubbard, Jack Kirkland, Clayton Knight, Dr. William Carlson and Bogart Rogers.

(Adamson presently lives in Saratoga.)

Local Hatchery Subject Of Citizens Petition

A West Campbell Improvement Club is in the making, according to Roy S. La Vette, 71 Giles way, one of the organizers, with its principal aim dedicated to eliminating the "flies, odor, and disturbance" created by the Campbell Hatchery, 111 South Winchester road.

A petition signed by 100 district residents will be presented at City Council meeting Monday night by a large delegation spokesmaned by La Vette who maintain that the hatchery is not in fact a hatchery but a chicken farm where kiling chickens is being done without a permit.

City Council on an earlier complaint had decided to defer action on the matter pending an investigation by the County Board of Health.

Deficiencies noted in a preliminary inspection by the Health Department were to be corrected by La Verne Houck and Loh Ford, operators, and a written report on resuts of final inspection was to be submitted to City Council.

City Council has not yet received the final report, according to City Clerk Dorothy P. Trevathan.

The delegation opposing the hatchery as a nuisance intends to petition the City Council Monday to institute abatement proceedings.

LOCAL KIWANIS TO ATTEND DISTRICT MEET

The Kiwanis Club of Campbell will be represented at the 1952 convention of the California-Nevada-Hawaii Kiwanis district at Sacramento, Calif., Oct. 5-8, club president, Larry Hill, announced today.

The local representatives to the convention will be Larry Hill, Milt Nelson and Fred E. Jones.

Reed C. Culp, trustee of Kiwanis International and prominent livestock broker of Salt Lake City, Utah, will be a featured speaker during the four-day meeting at the Hotel Senator.

Delegates from 275 clubs in the district, representing a membership of 16,600 business and professional leaders, will participate in the various sessions. Committee conferences, a discussion of plans for the coming year, and election of officers will highlight the convention program, Hill said.

The presiding officer will be Stary Gange, governor of the California-Nevada-Hawaii Kiwanis district and fruit grower of Lindsay, Calif. The Kiwanis Clubs of Sacramento and Greater Broadway will be hosts to the convention.

Mr. Culp, who will serve as the official representative of Kiwanis International at the meeting, is a past governor of the Utah-Idaho Kiwanis district. His firm, Culp and Sons Sheep Company, is one of the largest livestock enterprises in the west.

H. Park Arnold, Glendale, Calif., a prominent lumber dealer, and trustee of Kiwanis International, will also be in attendance.

RED CROSS OFFERS BLOOD CREDIT PLAN

Campbell Community Club which sponsors the blood drive September 29, at the Methodist Church grounds has announced a blood credit club plan for the participation of employees of industries and corporations as well as for members of church, fraternal and union groups.

A spokesman outlined the plan as follows:

A minimum of ten donors is required to become a participating club. Minimum requirements over and above the ten pints will be determined by the number of members in any given club.

All members of a club and their immediate families, whether they personally have been able to contribute their blood or not are eligible, in the time of need to draw upon the blood savings account established by their organization.

After the first contribution, Red Cross sends the donor an identification card giving his blood type and Rh factor. In an emergency, this information is immediately available to doctors and hospitals.

The patient's family is also spared the often difficult task of securing donors when blood transfusions are needed in an emergency.

LOCAL GIRL WINS BIKE ON TV SHOW

It isn't because 10-year old Judith Petersen's parents, Mr. and Mrs. O. A. Petersen, 120 Giles Way, Campbell recently inherited some money that enable her to ride around Campbell on her new Deluxe model Roadmaster girl's bicycle.

Judith won by submitting the best letter explaining why she liked a certain brand of Tootsie Roll following directions received on the "Tootsie Hippodrome" Television program.

A telephone message from New York Sunday morning at 8:30 a. m. informed her that her letter had been read on the program the preceding Friday and that if she could answer over the phone the name of the Naval Construction Battalion during World War II, the bicycle would be sent.

Judith's correct answer "Seabees" made her the proud owner of her latest mode of transportation.

Judith is not a one-time contest winner. She follows radio and television programs closely and last year won a complete Lone Ranged cowgirl outfit on the same type of program.
